

X2 Soccer 2009

Finally, from the masters of handheld sports, you've found a football game that allows you to play according to your rules. X2 Football lets you experience the highs and lows of taking more than 50 National teams through a number of tournaments, leagues and cups, and gives you total control of the action with the revolutionary floating analogue stick and X2 S.M.A.R.T buttons. This ingenious and cutting edge system delivers Slick Movement and Robust Tactics coupled with a fluid, 360 degree control method that takes handheld football to the next level. The X2 control system means that you can play intuitive football in the way that just feels right. Play thru-balls along the ground or in the air, perform tricks and make the plays happen as you see them. Shoot, make a lofted cross and ping the ball around pitch, but keep an eye on the X2 power gauge to make sure you hit that sweet spot every time. Thanks to the X2 control system it's easy for a beginner to pick up and play, but to master it takes practice and skill. Just like on a real pitch. X2 Football also gives you the chance to delve deep into the strategy of the beautiful game if that's what you want. Take complete control of team management and see how the decisions you make in the dugout translate into success (or failure) on the pitch. With full motion-captured player animations, a blisteringly fast game engine and the sublime X2 control system, X2 Football brings the pace, nuances and skills of the beautiful game realistically to life. Why wait for extra time when you can play right now! X2 Football - the definitive 3D football experience on the iPhone and iPod Touch from the masters of handheld football.

User's Comments: "Fantastic This game is amazing, very very well done. The graphics and gameplay are very good, easy, smooth controls. I didn't think anyone was going to be able to make a better game than Real Soccer 2009 but this game has done it. I love the commentary! Love the celebrations! I can't wait for updates. If it had club teams it would be absolutely perfect. Get it! It's worth the \$7"

"Far and away the best soccer game This game is fantastic, much much better--and more realistic-- than Real Soccer. The controls are simply brilliant. It doesn't have as many game modes as Real Soccer--an update would be helpful--but its vast superiority in every other respect easily outweighs this drawback."
