User's Comments: "My daughter loves this! When searching around for apps for my kids I wasn't sure whether my 3 year old would like it or be able to play it solo. It took her a bit to realize how it worked but now LOVES it. Even with new apps I add to my phone she always goes back to this one and has so much fun. She even noticed the update you guys just did. Keep up the great work, very cute app that was well tailored to preschool minds."

"Such a Cute App my daughter has not stopped playing this game, and she loves matching and rearranging the girls' makeup! This is the best makeup app on iTunes, and the only one that my kids really liked"
