Keep an eye on your energy bar and be careful not to over extend yourself. Get ready for the rush and experience a classic adventure with stunning art, colorful characters and high quality production values. **BUY THE PREMIUM VERSION & GET:-** Dig for gold and explore up to 30 mines full scary bats and collapses

- Blast away blocks of earth as you avoid dangers and try to dig up as much gold as you can
- Use some of your profits at the general store to improve your luck including gold maps, a variety of explosives and more!
- Discover hidden artifacts such as the mysterious Pandora's box, buried artifacts and other surprises!
- Enjoy a compelling story with great looking art that unravels as you play for nearly endless hours!
- Unique iPhone and iPod touch controls -- users can tap or touch the screen to move Mandy and start digging or swipe their finger across the screen to get her moving.
- Excellent real music and sound effects

User's Comments: "Decisions Decisions! am considering upgrading to full. I feel like it's a little hard to really know how deep this game runs but I think it's worth it... still trying to decide. I think the game LOOKS REALLY GOOD though. controls easy and looks appetizing to the eye. huge potential here I think"

"Nice and Original It reminds me of digdug, but also a little like Zelda. Obviously the concept of the game is nothing like the two but I suppose the mechanics and the layout of the game feel that way. I agree that the game looks and plays well, seemingly a pretty good trend in most of digital chocolates games. I think I'm going to upgrade to full, nice to have a game that actually has a bit of complexity to it, and not just simple no brainer 1 touch trick type game."
