

Boggle

BEAT THE CLOCK! Test your word wit with BOGGLE, the exciting iPhone/iPod touch game from EA Mobile. Popping with personality, this pocket-sized version of the classic word-search game packs a lot of punch! Play against the clock in Challenge Mode or modify your time limit in Advanced Mode. Play by your OWN rules in Self-Score Mode! Track challenges and record names, scores & words on a virtual notepad. Collect rewards for your way with words and tap into your iTunes Library while you play!

Game Features: - Popular word-search game based on the classic board game

- 3.0 ready - Listen and control music from your iTunes Library while you play

- 3 Modes: Challenge, Advanced, and Self-Score

- Intuitive touch controls

- Email friends and invite them to a challenge

- Collect rewards for word achievements

- In-game notepad to track challenges, record players' names, scores and words

User's Comments: "Great Game! There are quite a few of these games but as always nothing beats the original! I also bought Scramble but it would tell me I missed out on words that weren't even in the English dictionary!!! Boggle is legit and it shows you get what you pay for! Looks really nice and is easy to play also." "BogglingWondered how this would compare to other word games out there and was pleasantly surprised! The basic premise is pretty similar to Scramble, WordFu, and Wurkle, but I'm able to actually CONFIGURE MY PLAY TIME! Take note other games, Hasbro is the original and still the best at making these games. My high score is 48- who can top it? Post in your review!"
