

Mr. Driller

The town has been overrun by mysterious colored blocks and its up to Mr. Driller to get to the bottom of it! Armed with his mighty drill, Mr. Driller must drill through the blocks to find their source in this fast-paced puzzler! Blocks of the same color stick together and disappear if more than four are combined. But beware, the blocks above may crush Mr. Driller. As he goes, Mr. Driller will have to scramble for air capsules to stay alive! Mr. Driller is now available for iPhone/iPod touch!

 - Play Time Trial Mode featuring 10 unique levels!
 - Use highscore tracking to see how low you can go!
 - Share your achievements with your friends through Facebook connect!
- User's Comments: "Finally! This is probably one of the best Namco games ever. I loved the Nintendo DS version and this is very similar except this one connects with Facebook. For 99 cents you can't go wrong with this. My only criticism is that Susumu is the only driller available. Peer 2 peer VS would be nice too." "Great game One of my all time fav games, I own a copy I think on evrey system I own. The iPhone version needs a bit of tine to adjust to due to lack of a joystick, but once you get the hang of it you will know why this game is just so much fun."
